United States Forces Korea
Pamphlet 11-1

20 January 2009

Management Programs

INTERNAL CONTROLS

***This pamphlet supersedes Army in Korea Pamphlet 11-1, 14 December 2005.**

FOR THE COMMANDER:

JOSEPH F. FIL, JR.
Lieutenant General, USA
Chief of Staff

Official:

GARRIE BARNES
Chief, Publications and
Records Management

Summary.

a. This pamphlet prescribes responsibilities, policies and procedures for the Headquarters United States Forces (USFK) and Eighth United States Army (Eighth Army) internal control process in accordance with (IAW) DOD Instruction 5010.40 and Army Regulation 11-2. The Internal Control Evaluation Plan (ICEP) at appendix A identifies functions and subtasks requiring internal control evaluations.

b. Under the internal control process, the Assistant Chief of Staff (ACofS), Resource Management (RM), schedules Headquarters, USFK, and Eighth Army wide evaluations of key internal controls at least once every two years and high risk key internal controls at least once every year. These mandatory evaluations satisfy the basic requirements of the Federal Managers' Financial Integrity Act of 1982 (Public Law 97-255). Assessable Unit Managers (AUMs) may decide how to evaluate the key controls, using either the standard checklists or existing

management review processes. Evaluations must test key controls and document the results and any corrective actions taken.

Summary of Change. This publication has been substantially changed. A full review of its content is required.

Applicability. This pamphlet applies to Headquarters, United States Forces, Korea (USFK); and all units, organizations, staff elements and other activities assigned to Eighth Army. It remains in effect during all levels of mobilization. Headquarters, USFK staff activities for which the Army is executive agent are supported by the HQ USFK and Eighth Army internal control process IAW DOD Instruction 5010.40, Managers' Internal Control Program Procedures; and AR 11-2, Managers' Internal Control Program.

Supplementation. Supplementation of this pamphlet and establishment of command and local forms are prohibited unless prior approval is obtained from Headquarters, USFK (FKRM), Unit #15237, APO AP 96205-5237. However, Assessable Unit is required to develop and maintain an effective, activity-specific Internal Management Control Evaluation Plan (see for example, paragraphs 1-4c(5) and 1-4d(2)(5), this pamphlet).

Forms. USFK forms are available at www.usfk.mil, under Publications.

Records Management. Records created as a result of processes prescribed by this pamphlet must be identified, maintained, and disposed of according to AR 25-400-2. Record titles and descriptions are available on the Army Records Information Management System (ARIMS) website at <https://www.arims.army.mil>.

Suggested Improvements. The proponent of this pamphlet is the Headquarters, USFK, ACofS, RM (FKRM-DM). Users may suggest improvements to this pamphlet by sending DA Form 2028 (Recommended Changes to Publications and Blank Forms) to the Headquarters, USFK, ACofS, RM (FKRM), Unit #15237, APO AP 96205-5237.

Distribution. Electronic Media Only (EMO).

Chapter 1

General

1-1. Purpose

a. This pamphlet prescribes responsibilities, policies and procedures for the Headquarters, USFK and Eighth United States Army (Eighth Army) Internal Control Process in accordance with (IAW) AR 11-2. The Internal Control Evaluation Plan (ICEP) at Appendix A identifies functions and subtasks requiring internal control evaluations.

b. Under the internal control program, the ACoS, RM, schedules Headquarters, USFK and Eighth Army wide evaluations of key internal controls at least once every two years and high risk key internal controls at least once every year. These mandatory evaluations satisfy the basic requirements of the Federal Managers' Financial Integrity Act (FMFIA) of 1982 (Public Law 97-255). The AUM may decide how to evaluate the key controls, using either the standard checklists or existing management review processes. Evaluations must test key controls and document the results and any corrective actions taken.

1-2. References

Publications listed in Appendix A are synonymous to the inspection area only and are not listed as required publications. Detailed internal control information is posted on the Eighth Army portal intranet site http://8tharmy.korea.army.mil/q1_ag/. The following are required publications:

- a. AR 11-2 (Management Control). Cited throughout.
- b. AR 25-400-2 (The Army Records Information Management System). Cited in paragraph 1-4e(4).
- c. DOD Instruction 5010.40 (Managers' Internal Control (MC) Program Procedures). Cited throughout.
- d. Public Law 97-255 (Federal Managers' Financial Integrity Act of 1982). Cited in paragraphs 1-1b and 1-4c(8).

1-3. Explanation of abbreviations and terms

Abbreviations and terms used in this pamphlet are explained in the glossary.

1-4. Responsibilities

- a. Chief of Staff, USFK --

(1) Designates the USFK ACoS, RM as the proponent office to ensure that the internal control process is effectively implemented within Headquarters, USFK and Eighth Army.

(2) Signs and submits an annual statement of assurance that describes the effectiveness of internal controls within Headquarters, USFK and Eighth Army to include any material weaknesses and corrective actions plans. [Once signed, USFK ACoS, RM submits the annual assurance statement to Assistant Secretary of the Army (Financial Management and Comptroller)].

b. The USFK ACoS, RM, acting through a designated Internal Control Administrator (ICA), provides overall direction for administering the internal control program IAW AR 11-2 and DODI 5010.40, and will--

- (1) Publish and maintain the ICEP (i.e., USFK Pam 11-1).
- (2) Serve as the focal point for all internal control matters.
- (3) Oversee preparation of Headquarters USFK and Eighth Army annual assurance statements that accurately describe the status of internal controls, and disclose any material weaknesses along with the plans for corrective actions. Office of Undersecretary Defense (Comptroller) and OASA (FM&C) publish annual instructions for the preparation of Annual Assurance Statements. Likewise, ACoS, RM will provide annual guidance to Headquarters, USFK and Eighth Army organizations to augment or amend guidance contained in this pamphlet, as required.
- (4) Identify internal control training requirements and provide annual "train the trainer" training to Internal Control Coordinators assigned to Headquarters USFK, and Eighth Army headquarters and major subordinate commands (MSC).
- (5) Monitor material weaknesses on a quarterly basis until corrected and closed. Written status reports are due to the ACoS, RM, quarterly from the date an assessable unit manager (AUM) originally forwarded an Annual Assurance Feeder Statement material weaknesses to the ACoS, RM.
 - (a) The DOD requires that the last milestone of the material weakness corrective action plan shall be validation that corrective actions have resolved the weaknesses. An internal or external audit or inspection activity supervised by a leader other than the AUM responsible for the material weakness shall complete and document validation of the material weakness closure. Material weaknesses may not be closed until this validation milestone has been accomplished.
 - (b) Validation documentation shall include identification of the audit/inspection activity (e.g., Command Internal Review and Audit Compliance Office; US Army Audit Agency; DOD Inspector General); scope, date and conclusions of the validation auditor/inspector; and recommendations, if any, for further AUM/management corrective action.
- (6) Update, and revise, as required, the AU and AUM list (Appendix B). As a rule, AUs are staff elements, units and directorates at USFK Headquarters, Eighth Army and MSCs led by a commander or director in the rank/grade of colonel, GS-15, YC-3-level or higher. The AUMs are the commander, director or principal deputy of each AU (at or above colonel, GS-15 or YC-3 level) within Headquarters, USFK staff sections; and Eighth Army staff sections/directorates and MSCs. If a Headquarters USFK staff section or Eighth Army activity proposes to designate an AUM in a grade below colonel, GS-15 or YC-3, the first colonel responsible for oversight of the activity should submit the proposal through command channels to ACoS, RM.

c. The AUMs for USFK staff, and Eighth Army assigned units and staff sections will--

- (1) Provide leadership and support needed to ensure that internal controls are in place and operating effectively.
- (2) Designate in writing, an internal control coordinator and provide a copy of the designation to the ACoS, RM internal control administrator not later than (NLT) 30 days after appointment. The internal control coordinator must have a rank/pay grade of O-3, YA-2, GS-

9/KGS-9, or above. The minimum grade requirement for internal control coordinators will not be waived. Intent is that the activity internal control coordinator will have sufficient situational awareness of the activity's mission, overall priorities, processes, challenges, and transformation initiatives. A contractor cannot serve as an internal control coordinator, AUM, or functional manager.

(3) Ensure internal control coordinators and all subordinate (functional) managers with internal control responsibilities are trained annually and understand their internal control responsibilities.

(4) Ensure internal control responsibilities (e.g., AUM appointment) are explicitly stated in support forms and performance appraisal objectives of AUMs, commanders, internal control coordinators, functional managers, and other individuals with internal control responsibilities. For example, the statement on an AUM's support form or performance objective should read: "Serve as Assessable Unit Manager (AUM), oversee effective internal controls, and comply with applicable provisions of DOD Instruction 5010.40 and AR 11-2."

(5) Ensure an effective, activity ICEP is developed, maintained and implemented. The activity ICEP should present specific internal control responsibilities, identify key internal controls, clearly communicate to subordinate functional managers what areas are to be evaluated within the AU, who will conduct the evaluations, and when evaluations must be completed.

(6) Ensure internal control evaluations are conducted and documented according to requirements specified in reference 1a and this pamphlet.

(7) Maintain required documentation on each completed internal control evaluation and assurance statement, subject to audit or inspection, for at least two years IAW AR 25-400-2. Retain documentation related to material weaknesses at least two years after the material weakness has been validated as closed.

(8) Sign and submit an annual statement of assurance that accurately describes the status of internal controls within your organization and complies with DOD Instruction 5010.40, AR 11-2, this pamphlet and annual instructions ACofS, RM will distribute as a tasker prior to the annual due date.

(a) Each AUMs annual assurance feeder statement will address his/her degree of reasonable assurance for overall FMFIA requirements. Additionally, each AUM within an organization designated as an office of primary responsibility (OPR) for Internal Controls over Financial Reporting (ICOFR) requirements, will address (within the annual assurance statement) his/her degree of reasonable assurance for specified ICOFR segments identified at paragraph 2-3.

(b) Report on material weaknesses and provide a thorough corrective action plan for each material weakness in the annual assurance statement submitted to the ACofS, RM. See Appendix D. Additionally, submit a quarterly status report to ACofS, RM on actions taken to correct each open material weakness until an external inspection/audit organization validates that the material weaknesses is resolved. Written status reports are due to the ACofS, RM, quarterly from the date the AUM originally forwarded the Annual Assurance Feeder Statement material weaknesses to the ACofS, RM. If a material weakness is not validated as having been corrected before the next Annual Assurance Feeder Statement is due, then an updated material weakness will have to be forwarded with the annual assurance feeder statement to the ACofS, RM, indicating that the material weakness is reoccurring.

(c) Within the assurance statement, confirm that Support Forms and performance plan objectives of AUMs, internal control coordinators, and functional managers contain explicit statements of these managers' responsibilities to implement effective internal controls.

(d) Sign and certify results and procedures used to test each required internal control evaluation on DA Form 11-2-R (Management Control Evaluation Certification Statement) (format at appendix C). The DA Form 11-2-R can be reproduced from AR 11-2 or downloaded from the Army Electronic Library (www.usapa.army.mil). Submit signed DA Forms 11-2-R to the ACofS, RM, as enclosures to the annual assurance statement memorandum.

d. Internal Control Coordinators (designated within each AU) will--

(1) Advise each AUM on implementation and status of the organization's internal control process.

(2) Identify the organization's internal control training requirements; and accomplish and document this training.

(a) Attend the annual Internal Control Program training presented by the ACofS, RM internal control administrator. ACofS, RM will distribute a notification prior to this training.

(b) Activity Internal Control Coordinators are responsible to present annual internal control training to AUMs and functional managers, and document this training. This training will be tailored to address the activity's internal control requirements. The AUMs and functional managers may also attend training presented by the ACofS, RM on a space available basis.

(3) Serve as the point of contact within the organization for all internal control matters.

(4) Keep commanders and managers informed about internal control matters.

(5) Develop and maintain an ICEP for the organization IAW this pamphlet and AR 11-2. The procedures for developing your ICEP are--

(a) Review the inventory of functions that require evaluation within: (1) Appendix A; and (2) paragraphs 2-1 and 2-2; and identify those applicable to your organization.

(b) Identify other functions that your organization should evaluate and develop test questions to evaluate the function. Ensure that all locally developed alternative evaluation methods are submitted to the ACofS, RM, for approval

(c) Present all applicable functions, identify key controls, and specify subordinate manager/activity responsibilities in the unit's ICEP.

(6) Maintain an internal control program continuity book.

(a) Ensure this pamphlet, required references at paragraph 1-2, and any local guidance that defines internal control responsibilities and required actions are on hand and readily available for use.

(b) Maintain copies of open audit, inspection and staff assistance visit reports of the AU (or have ready access to these reports); track unresolved weaknesses; and use the audit and inspection reports to improve internal processes and internal controls.

(c) Retain required documentation on each completed internal control evaluation and assurance statement, subject to audit or inspection, for at least two years IAW AR 25-400-2. Retain documentation related to material weaknesses at least two years after the material weakness has been validated as closed.

(7) Ensure required internal control evaluations are conducted according to this pamphlet. Evaluations can be completed during that fiscal year (FY) but before submission of the annual assurance statement.

(8) Coordinate preparation of the organization's annual statement of assurance on internal controls. Retain all required documentation in support of the assurance statement and correction of material weaknesses.

(9) Report through the chain of command any material weaknesses in internal controls, establish and implement timely plans to correct material weaknesses, and monitor progress in executing corrective plans until the material weaknesses are resolved. The format to report a material weakness to ACofS, RM (including quarterly status of material weaknesses) is at appendix D.

(10) Review documentation at each level to ensure required actions have been accomplished.

(11) Submit signed internal management control evaluation certification statements (DA Form 11-2-R) to the ACofS, RM, with the annual statement of assurance.

e. Functional Managers will--

(1) Conduct evaluations of key internal controls. Key internal controls will be evaluated by testing them and documenting the results of the evaluations. Testing may involve one of several approaches such as direct observation, file or document analysis, sampling and/or simulation. As a minimum, supporting documentation (completed DA Forms 11-2-R) will identify the internal controls evaluated, who conducted the evaluation, the date the evaluation was conducted, what methods were used to test key internal controls, what internal control weaknesses (if any) were detected, and what corrective actions were taken and are in progress.

(2) Identify and report internal control weaknesses detected during reviews and evaluations. A corrective action plan with milestones will be prepared for each weakness.

(3) Prepare a DA Form 11-2-R for each internal control evaluation completed, and forward the statement to the internal control coordinator for AUM review and signature.

(4) Retain documentation on each completed internal control evaluation and material weakness, subject to audit or inspection, for at least two years. This will be an item of interest on Command Inspection Program (CIP) inspections for Eighth Army organizations.

(5) Ensure internal control evaluations performed by contractors are conducted according to this pamphlet. If a contractor is expected to conduct internal control evaluations, this additional responsibility must be included as a contract requirement. Such designation does not exempt the government requiring activity from responsibility to accomplish and document thorough surveillance of contractor performance.

(6) Understand and apply the Comptroller General Standards for internal controls in the Federal Government. Enclosure 2 of DOD Instruction 5010.40; and Appendix B of AR 11-2 describe these standards.

f. Internal Review Office will--

(1) Provide technical advice, assistance and consultation on internal controls and the adequacy of evaluations and actions taken to correct material weaknesses.

(2) Evaluate the effectiveness of internal control evaluations and actions taken to correct material weaknesses during the normal course of program reviews.

(3) Inform ACofS, RM on weaknesses in internal controls Internal Review Office is aware of that merit reporting – including potential material weaknesses identified in external inspection and audit reports.

(4) Distribute internal and external inspection and audit reports to ACofS, RM; and Headquarters, USFK; and Eighth Army activities to ensure commanders and managers are aware of findings and recommendations, take appropriate actions to correct deficiencies, and take advantage of lessons learned.

(5) Review Headquarters USFK and Eighth Army annual assurance statements and provide assessments of thoroughness and validity.

(6) Assist command leaders to arrange for audit/inspection agencies to complete external audits or reviews to validate proper closure of material weakness corrective actions.

Chapter 2

Policies and Procedures

2-1. Two-Year Internal Control Policies And Procedures

a. All commanders and managers have an inherent responsibility to establish and maintain effective internal controls, assess areas of risk, and identify and correct weaknesses in those controls. The chain of command should encourage prompt and full disclosure of material weaknesses and ensure commanders and managers are not penalized for reporting these weaknesses.

b. Key internal controls are those controls that are absolutely essential to ensure that critical processes operate as intended and resources are safeguarded from fraud, waste, and misuse. The cost of internal controls must not exceed the benefit derived. At each operating level, the determination of the materiality of a weakness is a management judgment.

c. The AUMs will ensure that internal control evaluations are conducted. The AUMs or subordinate elements may supplement the list and conduct additional evaluations or increase the frequency of the evaluations.

d. Managers are allowed to choose how internal control evaluations will be conducted. However, the method used must evaluate key controls by testing them, and document the results of the evaluation and any corrective actions required and accomplished.

e. Instructions for applying the ICEP, at appendix A, and the descriptions of column elements are—

(1) Column 1, TASK/SUBTASK. Major tasks are listed in bold, uppercase letters. Identified below each major task are the subtask descriptions identified by Department of Defense, HQDA, USFK, and/or Eighth Army proponents that require evaluations.

(2) Column 2, RELATED REGULATION. This number cites the governing directive, regulation or guidance document related to the subtask.

(3) Column 3, CHECKLIST SECTION. This section provides the status on what internal control checklists are available to evaluate controls.

(a) **PUBLISHED IN.** Reflects the progress of DOD and HQDA functional proponents in reviewing the current inventory of checklists or governing directives. The checklists may be revised, eliminated, or replaced with an alternative evaluation method.

(b) **DATE.** Cites the month and year of publication of the checklist or governing directive.

(4) Column 4, ALTERNATIVE EVALUATION SECTION

(a) This section presents alternative evaluation methods. Unless the DOD or HQDA functional proponent requires a specific evaluation method, commanders and managers can decide how they will evaluate their internal controls. Functional managers may use the most current checklist, the alternative method suggested by DOD or HQDA, or alternative methods of their own choosing. All locally developed alternative methods must be submitted to the ACofS, RM, for approval and inclusion in this pamphlet. An alternative method must (1) evaluate the effectiveness of key internal controls, (2) accomplish this by actually testing the key internal controls, and (3) document what problems were found and what corrective actions will be taken.

(b) **DESCRIPTION.** Provides a brief description of the alternative method(s). Complete information of the method can be found in the referenced guidance.

(c) **PUBLISHED IN.** The guidance that discusses the alternative evaluation method(s).

(5) Column 5, FISCAL YEAR OF SCHEDULED USE. The number(s) in the column indicates the fiscal year(s) in which the evaluation must be conducted.

2-2. Selected High Risk Areas

The following are examples of areas where potential material weaknesses may exist. Each AUM shall evaluate key controls for each of the following high risk areas relevant to the organization's mission and functions. Headquarters, USFK staff elements and Eighth Army activities shall report weaknesses identified in any of these areas within annual assurance feeder statements. If there is any doubt, contact the USFK ACofS, RM internal control administrator for clarification.

- a. Anti-deficiency violations.
- b. Government purchase card program.
- c. Compensatory time reporting.

- d. Container inventory and management.
- e. Contract administration / oversight of service contracts.
- f. Equipment in-transit.
- g. Environmental management.
- h. Force readiness.
- i. Funds Control.
- j. Government travel card.
- k. Information technology, assurance, and systems security
- l. Interagency Acquisitions.
- m. Management of unexploded ordinance and munitions constituents.
- n. Manpower requirements determinations process.
- o. Obsolete regulatory guidance (i.e., regulations, pamphlets, policies, etc.) and/or regulatory guidance not made readily available to employees (include websites that are not updated at least quarterly).
- p. Procurement.
- q. Property management.
- r. Review and validation operational projects.
- s. Split disbursements (Defense Travel System).
- t. Time and attendance cards.
- u. Special Measures Agreements (SMA).
- v. Labor Cost Sharing.

2-3. Internal Controls Over Financial Reporting (ICOFR)

Following is a list (current as of the date of this pamphlet) of focus areas each Army Service Component Command (ASCC) – including Eighth Army – must evaluate annually, and report in the ASCC Commander's annual statement of assurance to comply with Office of Management and Budget (OMB) and Defense requirements. Accordingly, AUMs from offices of primary responsibility (OPR – identified in parentheses below) shall address ICOFR compliance within annual assurance feeder statements. Annual internal control instructions from ACofS RM will designate OPRs for other focus areas designated by OMB and DOD. The annual assurance feeder statement from each OPR shall include either an unqualified or qualified statement of assurance regarding internal controls over the topics indicated; or a statement of no assurance. Feeder reports with either a qualified statement of assurance or a statement of no assurance shall

include a corrective action plan to address material weaknesses. If a material weakness exists, the AUM will report the material weakness and provide a corrective action plan (format at appendix D).

a. Accounts Receivable (OPR – 19th Expeditionary Sustainment Command [ESC]). Both the 19th ESC annual assurance statement to ACofS, RM; and the Director, 175th Financial Management Center and 501st Sustainment Brigade Commander annual assurance feeder statements to CG, 19th ESC shall address the effectiveness of accounts receivable internal controls and financial reporting for Eighth Army organizations.

b. Accounts Payable (OPR – 19th ESC) Both the 19th ESC annual assurance statement to ACofS, RM; and the Director, 175th Financial Management Center and 501st Sustainment Brigade Commander annual assurance feeder statements to CG, 19th ESC shall address the effectiveness of accounts payable internal controls and financial reporting for Eighth Army organizations.

c. Military Equipment (OPR – Operational Sustainment Directorate, G-4; and MSCs)

d. General Equipment (OPR – Operational Sustainment Directorate, G-4; and MSCs)

e. Operating Materials and Supplies (OPR – Operational Sustainment Directorate, G-4; and MSCs)

f. Civilian Pay and Military Pay (OPR – 19th ESC). The 19th ESC annual assurance statement to ACofS, RM; and the Director, 175th Financial Management Center and 501st Sustainment Brigade annual assurance feeder statements to CG, 19th ESC shall address the effectiveness of internal controls and associated financial reporting of military pay and civilian pay – for Eighth Army organizations.

g. Environmental Liabilities (OPR – Operational Sustainment Directorate, Engineer)

h. Internal Use Software (OPR – Operational Command and Control Directorate, G-6 and MSCs)

2-4. Internal Control Evaluations

The following are examples of acceptable internal control evaluations within Eighth Army:

a. Organization Inspection Program using organizational checklists; CIP checklists found in Army in Korea (AK) Pamphlet 1-201; or checklists found in Joint Publications, Defense instructions and Army Regulations.

b. Internal Control checklists found in DOD publications and Army Regulations.

c. Locally developed evaluation methods – submitted to ACofS RM – to assess the effectiveness of internal controls for tasks and sub-task when the DOD and/or HQDA proponents have not yet published a list of key controls and/or checklist questions.

d. Internal Controls specified in risk analysis guidance addressing focus areas Department of Defense has identified to comply with ICOFR requirements.

DA FORM 11-2-R (Sample Management Control Evaluation Certification Statement)

MANAGEMENT CONTROL EVALUATION CERTIFICATION STATEMENT For use of this form, see AR 11-2; the proponent agency is ASA(FM&C).		1. REGULATION NUMBER USFK PAM 11-1
		2. DATE OF REGULATION XX JAN 2009
3. ASSESSABLE UNIT Assessable Unit being evaluated		
4. FUNCTION Function being evaluated		
5. METHOD OF EVALUATION (<i>Check one</i>)		
<input checked="" type="checkbox"/> a. CHECKLIST		<input type="checkbox"/> b. ALTERNATIVE METHOD (<i>Indicate method</i>)
APPENDIX (<i>Enter appropriate letter</i>)		
6. EVALUATION CONDUCTED BY		
a. NAME (<i>Last, First, MI</i>) Name, rank, title of person conducting evaluation		b. DATE OF EVALUATION Date evaluation conducted
7. REMARKS (<i>Continue on reverse or use additional sheets of plain paper</i>) 1. Certify all evaluations using DA Form 11-2-R (Management Control Evaluation Certification Statement) 2. Commanders, managers, assessable unit managers must evaluate all tasks, as applicable in their area of responsibility. 3. Choose the method of review: -- Internal Control Evaluation Checklist -- Existing or other review process (e.g., Command Inspection Program, Internal Review audit, IG inspection). 4. A internal control evaluation must: -- be detailed, systematic, and comprehensive -- determine whether key internal controls are: in place, being used as intended, and are effective in achieving their purpose. -- be based on actual testing of the internal controls, using one of several approaches: -- direct observation -- file/document analysis -- sampling or -- simulation 5. All evaluations must be supported by documentation that clearly states: -- who documented the evaluation -- when the evaluation was conducted - the date -- what methods were used to test key internal controls -- what internal control Material Weaknesses (MW), if any, were detected and -- what corrective actions were taken. 6. Reporting organizations (USFK Staff, 8th Army Staff, and Major Subordinate Commands) must maintain copies of their annual statements, along with complete supporting documentation. 7. Organizations tracking MWs must maintain documentation on: -- <u>Status of corrective action(s)</u>		
8. CERTIFICATION		
I certify that the key management controls in this function have been evaluated in accordance with provisions of AR 11-2, Management Control. I also certify that corrective action has been initiated to resolve any deficiencies detected. These deficiencies and corrective actions (<i>if any</i>) are described above or in attached documentation. This certification statement and any supporting documentation will be retained on file subject to audit/inspection until superseded by a subsequent management control evaluation.		
a. ASSESSABLE UNIT MANAGER		
(1) TYPED NAME AND TITLE Name of COL/GS-15 certifying the evaluation		b. DATE CERTIFIED Date of
(2) SIGNATURE		

DA FORM 11-2-R, JUL 1994

EDITION OF JUL 94 IS OBSOLETE:

7. REMARKS (*Continued*)

- Effectiveness of corrective action(s)
- Validation of corrective action(s)

8. Retention of documentation must be IAW AR 25-400-2, The Army Records Information management System (ARIMS)

- Assessable units remain most recent management control evaluations.
- Reporting organizations (USFK Staff, 8TH Army Staff, and MSCs) retain annual assurance statements for 2 years.
- Reporting organizations (USFK Staff, 8TH Army Staff, and MSCs) retain MWs for 2 years after validation.

Appendix D

Corrected/Uncorrected Material Weakness Format With Instructions For Completion

Local ID#. Your organization's
identification # for the MW _____

Title and Description of Material Weakness: The title should be short. The description should permit a full understanding of the problem, its cause and impact by a member of Congress or the general public. (If a material weakness was previously reported as corrected and must be reopened, it should not be reported as a new weakness. The material weakness should retain its earlier title and identification number with a parenthetical notation in the description that it was previously reported as closed in the FY XX annual assurance statement.)

Functional Category: Cite one of the broad DOD functional categories (page 34).

Pace of Corrective Action:

Year Identified: The FY the weakness was first reported in your assurance statement.

Original Targeted Correction Date: The FY that correction was targeted for when the weakness was first reported.

Targeted Correction Date in Last Year's Report: The FY that correction was targeted for in last year's report. If this is a new weakness, enter "N/A".

Current Target Date: The FY that correction is now targeted for. If this is a new weakness, enter "N/A".

Reason for Change in Date(s): If the "Current Target Date" is later than the "Targeted Correction Date in Last Year's Report", explain what caused this change. If these two items are the same date or "N/A", enter "N/A".

Component/Appropriation/Account Number: Component is "Army". Identify the appropriation(s) and account number(s) associated with this correction (Example: Army/Other Procurement, Army/Acct #).

Validation Process: Indicate the method to be used to validate the effectiveness of the corrective actions and the date that will take place. Indicate if the United States Army Audit Agency (USAAA) or Department of Army (DA) Inspector General has a role in this validation. Material weakness is closed when this process is completed.

Results Indicators: Describe the beneficial results that have been or will be achieved for the Army by the corrective actions, using quantitative and/or qualitative measures.

Source(s) Identifying Weakness: List all sources, to include: management control evaluations; GAO, DODIG, USAAA or DA Inspector General findings (cite the title, number and date of the audit/inspection report); local inspector general or internal review findings; or other management evaluations.

Major Milestones in Corrective Action: Indicate the major milestones (primary corrective actions) required to correct the weakness. Milestones should be directly related to correction of the weakness and should be stated in the present tense.

The DOD policy requires that validation occur **before** material weaknesses are reported as closed and that each material weakness includes a validation milestone as the last corrective action.

Milestones may be added or deleted for previously reported material weaknesses, but an audit trail must be provided. When adding a milestone, enter “(added)” under the new milestone’s date. When deleting a milestone, enter “(deleted)” under the date and provide a short explanation of why it was deleted at the end of the milestone description.

A. Completed Milestones:

Date:

Milestone:

B. Planned Milestones: (Current Fiscal Year):

Date:

Milestone:

C. Planned Milestones: (Beyond Current Fiscal Year):

Date:

Milestone:

Point of Contact: The name, office symbol, and telephone number of the individual who is most knowledgeable about and can respond to specific inquiries about the material weakness.

Section II

TERMS

Alternative internal control evaluation. Any existing management review process that meets the basic requirements of an internal control evaluation (i.e., it assesses the key internal control, it evaluates the control by testing it, and it provides the required documentation). The existing management review process may be unique to a specific function (e.g., Command Supply Discipline Program) or they may be generic (e.g., the CIP or audits by Internal Review Office staff).

Annual Statement of Assurance. An annual report that provides a broad assessment on the effectiveness of internal controls within the command or agency, and identifies any material weaknesses with internal controls.

Assessable unit (AU). A subordinate organization of the reporting organization. For Headquarters, USFK, these would be the principal staff/directorate elements. For Eighth Army, these would be the principal staff/directorate elements, MSCs and assigned units.

Assessable Unit Manager (AUM). The military or civilian head of an assessable unit, staff section, division or organizational element. The manager must be at least a colonel or YA-3/GS-15, unless an exception has been granted by the Senior Responsible Official of the reporting organization. The AUM certifies the results of required internal control evaluations and signs an annual assurance statement.

Comptroller General Standards. The five standards issued by the Comptroller General to be applied by all managers in the Federal government to develop, establish and maintain internal controls.

Feeder Statement. An annual report that provides an assessment of management controls within an organization and identifies any material weaknesses in the internal controls.

Internal control weakness. The absence or ineffectiveness of internal controls (e.g., internal controls are not in place, or are in place but are not being used, or are in place and being used but are not effective).

Material Weakness. An internal control weakness that merits reporting to the next level of command, either for action or awareness. To determine whether a weakness is material, consider the following factors: actual or potential loss of resources; sensitivity of the resources involved; magnitude of funds, property or other resources involved; actual or potential frequency of loss; current or probable media or Congressional interest (adverse publicity); unreliable information causing unsound management decisions; diminished credibility or reputation of management; impaired fulfillment of essential mission; violation of statutory or regulatory requirements; information security risk; and public deprivation of needed Government services.

Reasonable assurance. An acceptable degree of confidence in the general adequacy of internal controls to deter or detect material failures in complying with the objectives of the Integrity Act. The determination of reasonable assurance is a management judgment based on the effectiveness of internal controls and the extent of internal control deficiencies and material weaknesses.

Reporting organization. An organization that submits an annual assurance statement directly to Secretary of Defense or head of a military component (e.g., Secretary of the Army).

Risk. The probable or potential adverse effects from inadequate internal controls that may result in the loss of Government resources through fraud, error or mismanagement.

Senior responsible official. The senior official (i.e., USFK Chief of Staff / Commanding General, Eighth Army), designated by the head of the reporting organization, with overall responsibility for ensuring the implementation of the internal control process within the organization.

Support forms/evaluation. Refers to the DA Form 67-9-1 (Officer Evaluation Report Support Form), for military officers; Performance Appraisal Application for civilian personnel in the National Security Personnel System; and the DA Form 7222-1 (Senior System Civilian Evaluation Report Support Form) for "Senior System" civilian employees in the legacy civilian personnel system.

Test question. A question in an internal control evaluation checklist designed to help an AUM determine whether a key internal control is in place and operating as intended.

Unified Command. A command with a broad continuing mission under a single commander with assigned components of two or more military departments.
